**DIVISION ADVISORY**  
this Advisory is issued based  
on Regional Advisory No. 172, s. 2019, dated August 22, 2019

### **THE TRAINING WORKSHOP ON ROBOTICS**

The STEM Education Training Hub, a training and consultancy center for students and teachers will conduct a training workshop on robotics on September 14, 2019 at UST-Angelicum College, Quezon City.

The target participants are the Junior and Senior High School students as well as research teachers. The program aims to develop skills in robotics programming leading to the development of the 21<sup>st</sup> century skills.

For more information, you may contact Dr. Joseph R. Jacob, STEM Hub Director at mobile number 09153530454 or through email [www.stemtrainings.com](http://www.stemtrainings.com)

**Dr. WILFREDO E. CABRAL**

Director III  
Officer-in-Charge  
Office of the Regional Director  
DepEd NCR  
Misamis St., Bago Bantay  
Quezon City

Dear **Dr. Cabral**:

Mabuhay!

This is to seek from your good office your usual support in inviting junior and senior high school students as well as the research teachers to **"THE TRAINING-WORKSHOP ON ROBOTICS"** on September 14, 2019 at UST-Angelicum College, Quezon City. The program aims to develop skills in robotics programming leading to the development of the 21<sup>st</sup> century skills including critical thinking, problem solving and innovation skills. This is open for the participants that are beginning and intermediate in the robotics program. We will also have a special session for the participants preparing for both international and national level robotics competitions.

For several years now, we have already trained hundreds of teachers and students that have already been successful in their robotics endeavours by championing in various local and international competitions. Recently, the robotics team that we brought to France has taken home two Championship Awards in the RoboRave International. It is our passion and part of our societal responsibility to continue to hone young students to develop problem solving skills through robotics programming.

This program is organized by the STEM Education Training Hub, a training and consultancy center for students and teachers that specializes on training programs on education, research and STEM programs. We seek for your support in this great endeavour by helping us disseminate this information.

The registration form and the program are attached to this letter.

Thank you very much!

Sincerely,

A handwritten signature in black ink, appearing to read "Joseph R. Jacob", written over a horizontal line.
