Established in 1984, **PT Indo Straits Tbk. ("PTIS")** is one of the most recognised marine engineering companies in Indonesia servicing customers predominantly in the oil & gas and coal mining industries.

Over the years, PTIS, which is a wholly-owned subsidiary of Singapore-incorporated **Straits Corporation Pte Ltd ("Straits Corporation")**, has built a sound reputation in its areas of expertise, namely:

- **Marine Civil Engineering** which specializes
  - in offshore lifting works, dredging and reclamation works, offshore supply services to oil & gas and coal mining industries;
  - in jetty construction, marine piling works and other marine related works such as the construction of breakwaters, marinas and similar structures; and
- **Marine Logistics Support** which provides marine support logistics to customers in the oil & gas and coal mining industries. PTIS operates a fleet of over 43 units of floating equipment of various sizes.

Supported by a team of over 320 staff in Indonesia, PTIS enjoys strong relationships with major companies in the oil & gas and mining industries after amassing a solid track record of successful projects with stringent safety requirements and work procedures.

PTIS will continue to leverage on its expertise and strong customer base to gain a stronger foothold in the industries which it operates. Coupled with its sound operational presence in Indonesia, and being the largest archipelago in the world that has vast natural resources, the future of PTIS remains bright.

### OUR LOCATION MAP

# Organisation Vision & Strategies

## VISION

“To be a world-class organisation that provides quality support services in marine construction, offshore marine, marine civil engineering and logistic service support to resources and oil & gas industries.”

To achieve the vision, PTIS and the Group will undertake the following strategies:

- To build a cost effective corporate structure underpinned by strong corporate governance and operational excellence
- To build strong and effective operations and marketing functions

# Corporate Pillars

## People And Customers Centric Organisations

People and customer centric organisation

PTIS is a People Organisation:

- All staff work towards a common goal
- Committed to environmental protection and the health and safety of staff
- Every member of PTIS can make a difference and contribute to his/her full potential
- Encourages the sharing of ideas and knowledge to the benefit of the Company
- Supports new ideas and takes appropriate risk
- Takes prompt action to correct a problem
- Believes in staff recognition and gives due credit

PTIS is a Customer Centric Organisation:

- Makes it easy for customers to do business with the Company
- Listens to customers and understands their needs
- Plans ahead to deliver innovative and cost effective solutions to customers
- Dedicated to safe, flawless execution and deliver quality results

# Dynamic Management Team

PTIS is led by an experienced and dynamic management team, comprising industry veterans who have served the Company since its establishment in 1984. Through entrepreneurship, organic growth, acquisitions and measured risk taking, the team is set to take PTIS to the next level of growth.

The management team is headed by Mr Richard Ong Chui Chat, the founder of Straits Corporation Pte. Ltd. - formerly a member of Straits Group.
